

Best for All Quality Improvement Project- Baseline Survey

Please complete the survey about your hospital's practices to the best of your ability.

Thank you!

Hospital: _____

1. Does your hospital have a protocol for screening pregnant patients for social determinants of health (SDOH) during delivery admission? (For example: Using a screening tool to ask about social hardships patients may be experiencing that can impact their ability to access care and their health) - SDOH elements include - food insecurities, housing insecurities, transportation challenges, able to pay bills/utilities, child care assistance, education/training, family community support, personal stress, experiencing violence, substance use.

- food insecurities
- housing insecurities
- transportation challenges
- ability to pay bills/utilities
- childcare assistance
- education/training
- family/community support
- personal stress
- experiencing violence
- substance use

Please check the SDOH elements your hospital is currently screening for:

2. Does your hospital use a standardized tool for screening pregnant women for SDOH during delivery admission?

- Yes
- No
- Unknown

3. Does your hospital have a current process or protocol for linking patients to needed community resources and services (referrals for transportation/housing/food insecurity assistance) for their SDOH needs identified during delivery admission?

- Yes
- No
- Unknown

4. If a patient screens positive for a SDOH need at your hospital, or is identified as having financial challenges or other hardships in the home, what types of community or support services related to social determinants of health do you refer women to?

- Childcare
- Education
- Domestic Violence Support
- Food
- Housing (Homeless services/Shelter services/Eviction support)
- Legal status
- Transportation Assistance
- Utilities/Bills/Financial assistance
- Other Resources - please specify

Other Resources (please specify) _____

5. Does your hospital have a staff person who facilitates a warm hand-off for resources/services related to social determinants of health (staff contacts referral source and helps make connection) and/or follows up on the referrals made (staff contacts the referral source after patient discharge to confirm engagement or provides support to the patient with follow up)?

- Yes
- No
- Unknown

6. Does your hospital currently incorporate discussion of social determinants of health as potential factors to review in hospital maternal morbidity reviews?

- Yes
 No
 Unknown

7. Does your hospital collect patient self-reported race/ethnicity?

- Yes
 No
 Unknown

8. How does your hospital currently collect patient race/ethnicity information for the EMR? Please describe the current process/protocol:

9. Does your hospital track the percentage of patients who have race/ethnicity data recorded?

- Yes
 No
 Unknown

10. Can you identify patient insurance status in the EMR/medical record for data extraction? For example: patients insured by Medicaid versus private insurance?

- Yes
 No
 Unknown

11. Does your labor and delivery unit have a process to review maternal health quality data stratified by race/ethnicity and Medicaid status to address health care disparities?

- Yes
 No
 Unknown

12. Does your hospital engage patients and/or community members to provide input on quality improvement efforts?

- Yes
 No
 Unknown

13. Does your hospital share expected respectful care or patient-centered care practices with the clinical team? (For example, posting respectful care practices in work areas, providing training on respectful care practices, or having clinical team members review and sign expected respectful care practices document).

- Yes
 No
 Unknown

14. Does your hospital currently share any information on expected respectful care / patient-centered care practices with patients?

- Yes
 No
 Unknown

15. Does your hospital collect patient reported experience data via patient survey before discharge to provide feedback regarding patient report of respectful care practices experienced during their labor and delivery admission?

- Yes
 No
 Unknown

16. Does your hospital currently provide postpartum patient education materials on safety/maternal warning signs at discharge?

- Yes
 No
 Unknown

17. Does your hospital currently provide educational materials on infant safety upon discharge?

- Yes
 No
 Unknown

18. Are postpartum patients at your hospital typically scheduled for early postpartum visits with their providers around 2 weeks in addition to the traditional 6-12-week visit? Yes
 No
 Unknown

19. Does your hospital currently provide any training for physicians/OB providers or nurses on implicit bias or other diversity / equity /inclusion training? Yes
 No
 Unknown

20. Does your hospital utilize an electronic learning management system to facilitate education among providers and staff? Yes
 No
 Unknown

21. Does your hospital have a protocol or strategy to address diversity regarding hiring? (this may be a question best answered by HR). Yes
 No
 Unknown

22. Does your OB department have a protocol or strategy to address diversity regarding hiring (this may be a question best answered by HR or OB leadership)? Yes
 No
 Unknown

23. Does your hospital have a documented public commitment to equity (e.g., racial, ethnic, linguistic, and/or gender equity) to address disparities and or delivery equality? Yes
 No
 Unknown

24. Does your hospital currently document a patient's preferred language in the EMR? Yes
 No
 Unknown

25. Does your hospital have a Chief Diversity or Equity Officer? Yes
 No
 Unknown

26. Does your hospital have a Diversity / Equity / Inclusion Committee or other committee working on equity? Yes
 No
 Unknown

27. What do you see as the biggest opportunity for your hospitals' participation in the Best for All Learning Collaborative? _____

28. What do you see as the biggest challenge for your hospital's participation in the Best for All Learning Collaborative? _____

29. Please share any other thoughts on the Best for All Learning Collaborative. How can TIPQC best help your team succeed? _____
