

TIPQC Annual Meeting – Call for QI Project Presentations!

It is that time of year again! Time to share the excellent **quality improvement** work you have been doing by submitting a presentation for the annual meeting! This session will be virtual again this year! The presentations are pre-recorded so you do not have to be present at the Annual Meeting to participate.

This is not limited to TIPQC projects – the session is open to ANY quality improvement project. **The process begins by submitting a brief abstract (format attached) by December 3rd.** TIPQC has assembled a committee to review each abstract and provide feedback to the submitting group. Feedback will be received in plenty of time for you to apply it before having to submit your pre-recorded project presentation. The first step is to work on your abstract and send it in! We look forward to reading about your project! Questions? Contact the TIPQC office – we are here to help.

TIPQC Annual Meeting – Poster Session 2022 Recommended Abstract Format

Please submit a brief abstract (no more than 300 words) of your quality improvement project. Use the format below to submit a 1 – 3 sentence description of each point (purpose, methodology, results and implications for practice).

Title: Validated Screening Tool

Authors: Stephanie Elsten, Jessica Woods, and Leslie McClendon

Problem/Purpose: There was no use of a validated screening tool prenatally.

Implementation/Methodology: Physicians were educated by our physician champion on the use of the 4 P's. Charts have been audited each month for compliance.

Results: Increased use of validated screening tool from 0-73% from Jan.-Sept.

Conclusions: Implementation of screening tool has been successful.

Discussion/Implications for practice: Will continue to audit charts for compliance and even greater increase in the use of the tool.
