Perinatal Quality Care

# 2024 Lactation Workforce Trainings

Tennessee remains under-resourced in the need for lactation professionals. These professionals provide a critical support for moms and babies during their journey of breastfeeding. Thanks to grants from United HealthCare and Wellpoint, TIPQC was able to support additional trainings for healthcare professionals.

Profession of Trainees

“ I plan to use this training to better educate myself and others. I also hope to obtain this certification to be able to work within the Lactation Counseling fields, and to work towards becoming an IBCLC. ”

Region of Service

“ This training will be used to help educate, encourage, and empower the population I serve. ”
