

# TennCare covers home blood pressure cuffs for pregnant and postpartum members

Learn more about this program by visiting [TN.gov/tenncare/providers/programs-and-facilities/maternal-health](https://TN.gov/tenncare/providers/programs-and-facilities/maternal-health) or scan the QR code.

Help your patients monitor their health and identify early warning signs of hypertension from home.

## What are the benefits?

TennCare now provides home blood pressure cuffs at no cost for pregnant and postpartum members. Early detection of high blood pressure is crucial for preventing serious complications such as preeclampsia, stroke, and heart disease.

## What members are eligible?

- Pregnant or postpartum women who have TennCare or CoverKids

## Who can order?

Any in-network medical provider can order a blood pressure cuff. It does not need to be the member's obstetrician.

## How do I order a home blood pressure cuff?

An order must be submitted to a health plan's Durable Medical Equipment (DME) company.
